<h1>what is a web browser</h1>
<p1>a web browser is a software application used
to access and interact with information on the
World Wide Web.(WWW) It allows users to view web
pages, download files, stream videos and conduct
various online activities.
<h2>what is a search engine</h2>
<p2>search engine is a software system designed to
perform web searches, meaning it searches the
World Wide Web in a systematic way for particular
information specified in a textual web search
query.
